CranioSacral: This therapy is done over the clothes using a light touch along the spine and on the head. By bringing balance to the nervous system, it allows for muscle relaxation and optimal functioning of every organ in the body. It is especially helpful for chronic pain, headaches, TMJ, stress, and for improving focus, learning, and concentration.		Reflexology: By working on the 7,200 nerve endings in each foot, your whole body receives a tune-up as well as benefiting from increased circulation, relief of stress and tension, and improved nerve flow that is especially helpful for neuropathy and pain	Meridian Work/Light Healing Touch: This unique therapy uses light touch to release areas of congestion in the body and within the body's electromagnetic field. It is beneficial for balancing mental and emotional stress, uplifting mood, promoting clear thinking, and helping strengthen the body's defenses against stress, pollutants, and sensitivities.
Full Body Massage: Often involves full body, neck, back, arms, shoulders, and legs; to loosen & relax muscular tension, help with flexibility, boost immune system, & improve attitude.			Holistic Bodywork: Students are able to incorporate a variety of techniques and therapies, including CranioSacral, LHT, Reflexology & Full Body Massage, depending on clients needs.
